## Ohio Wesleyan Outcomes

Five Years Later...A Follow-up Study of the Class of 1998  
September, 2003

This summer, in addition to our usual one year outcomes survey, Career Services conducted a survey to study the career journeys of Ohio Wesleyan graduates five years after they graduated. This study was primarily motivated by a desire to gain a clearer picture of our Ohio Wesleyan graduates' paths, as five years allows us a better understanding of their employment and graduate school pursuits. Questionnaires were given to Ohio Wesleyan University Class of 1998 graduates approximately five years after their graduation. Graduates who attended their 5 year reunion were given the survey at their class dinner. After this initial connection with the class, graduates were e-mailed a link to the survey or, if an e-mail address was not available, mailed a paper copy of the survey with a postage-paid return envelope and instructions about the option of filling out the survey on-line. For those who did not respond to this original communication, individuals who were originally e-mailed were sent a follow-up e-mail reminder, and then a paper copy of the survey was sent to them. If graduates did not respond to the paper mailing of the survey, they were sent a postcard reminder. These communications yielded a return rate of 51% of the Class of 1998.

This report covers the following areas for the Class of 1998:

- *Summary Statistics*
- *Employment Information*
- *Graduate School Information*

The current status of the Class of 1998 is as follows:

74% are currently employed 15% are enrolled in graduate school 9% are enrolled in graduate school and employed 2% were involved in other endeavors at the time of the survey
---

Approximately 52% of the respondents from the Class of 1998 have earned (or are currently seeking) an advanced degree. For further detail, this report includes lists of employment by major and type, as well as graduate school information by major and area of study.

We hope this report will serve as a reference guide for all faculty, staff, students, parents, and alumni interested in career-related statistics for Ohio Wesleyan graduates. If you have any questions or desire additional statistics about the Class of 1998, please contact Career Services at (740) 368-3152. While personally identifiable information is confidential, we are able to sort information by any field listed within the questionnaire. We hope you find the results of this survey interesting and informative.

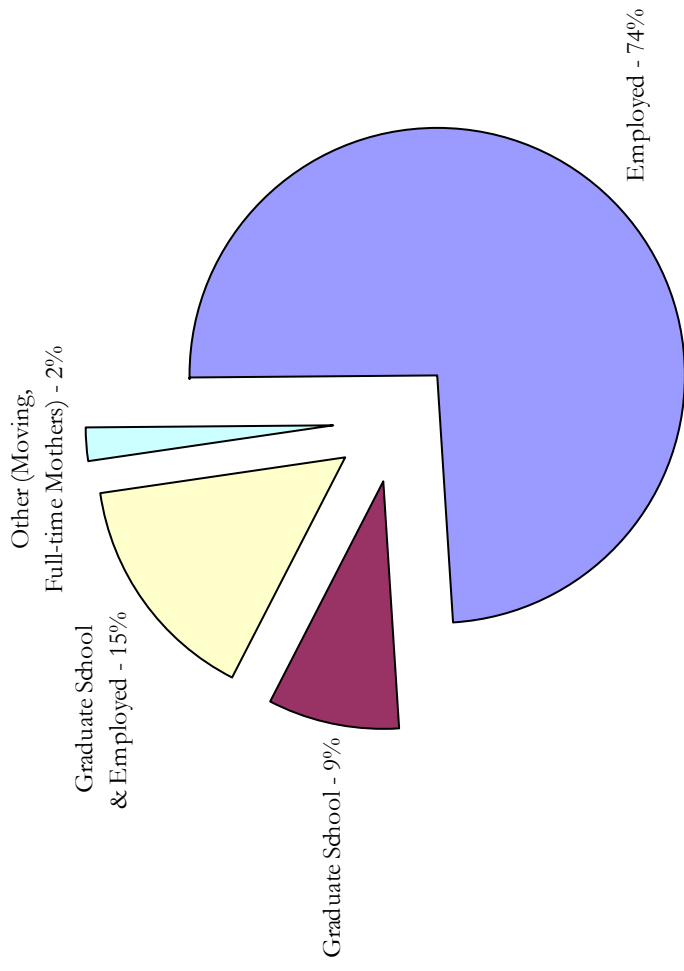

Sincerely,

Carrie A. Lippert  
Director of Career Services

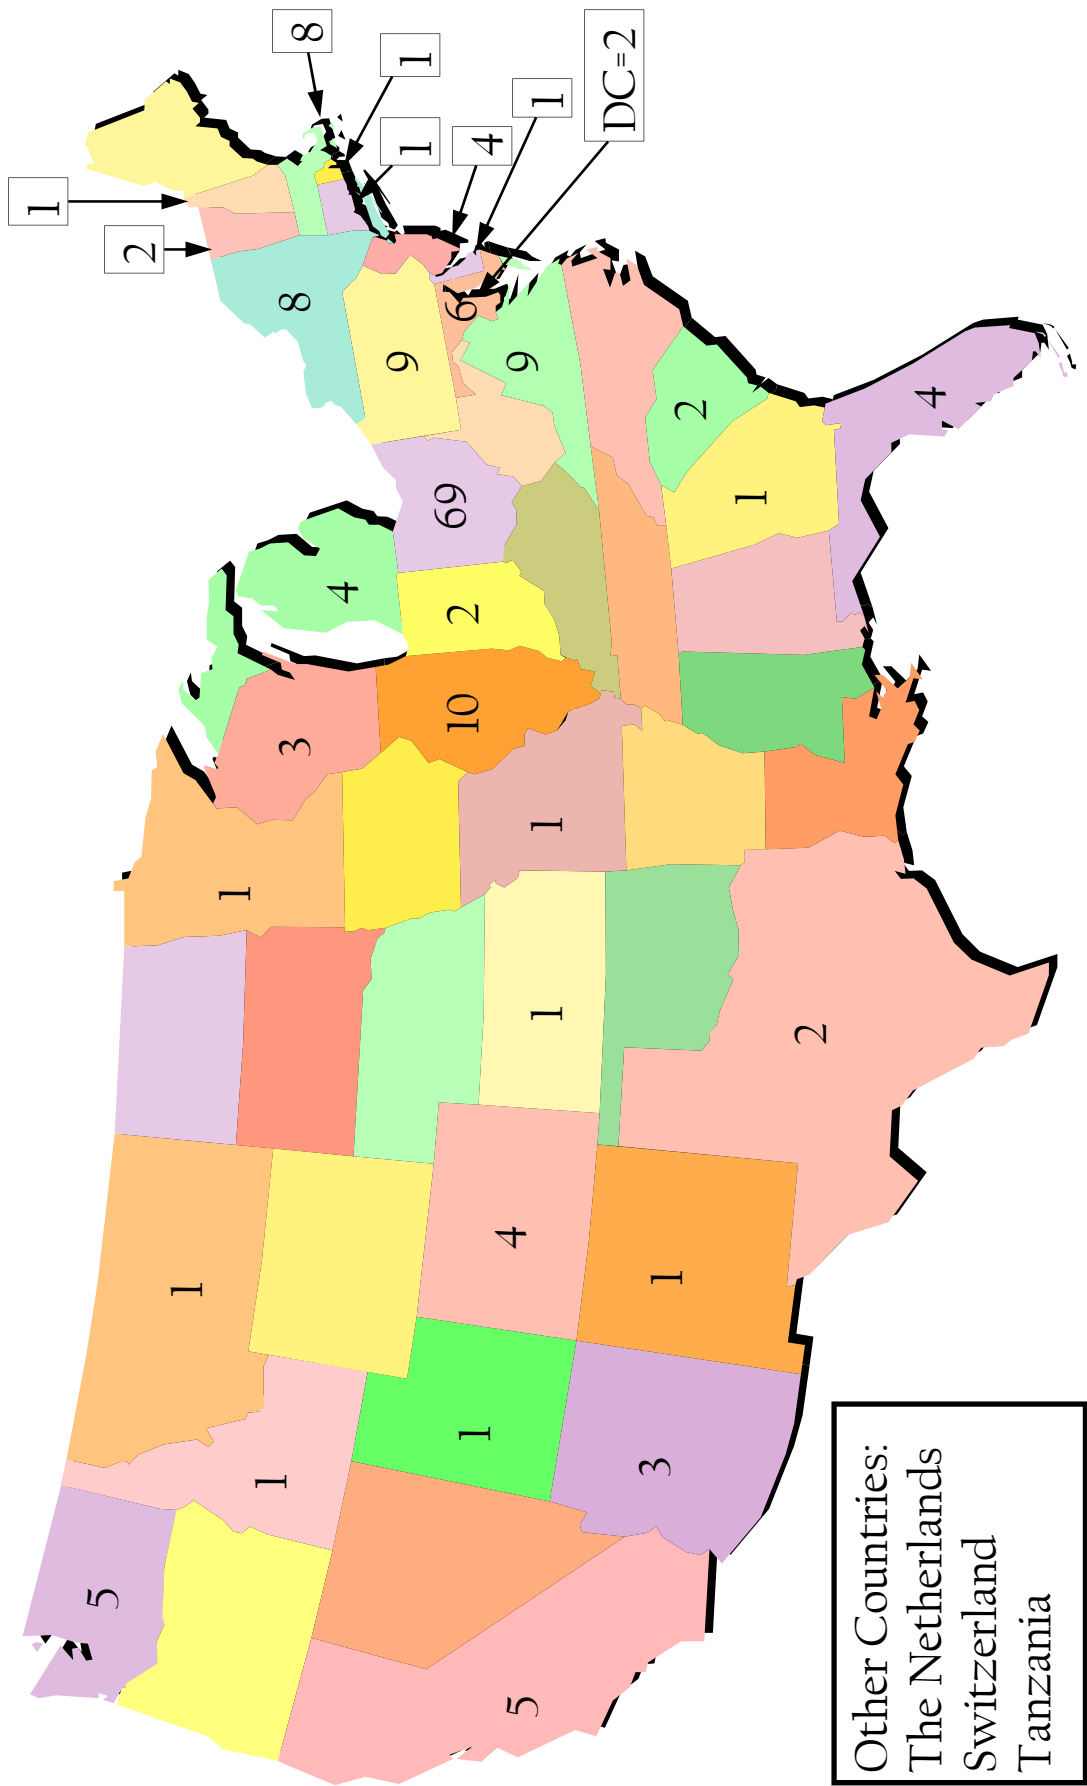

Nancy A. Westfield  
Asst. Director of Career Services
