**A Follow-up Study of the Class of 2003**

The Office of Career Services is pleased to present its annual report on the career journeys of Ohio Wesleyan graduates. This report is for the Class of 2003. Annual Outcomes Reports are conducted approximately one year after graduation. Career Services takes seriously its responsibilities with regard to following up on the career placement of OWU graduates each year. This year, in addition to the questionnaire originally sent out to all graduates, as well as postcard and e-mail reminders, staff also conducted a "call night". We are pleased to report that these efforts produced a highest ever response rate of 41.7%!!

This report presents information with regard to three important areas for the Class of 2003:

1. Summary Statistics
2. Employment Information
3. Graduate/Professional School Information

As always, it is our hope that this report will serve as a useful reference for administration, faculty, staff, students, parents, alumni, and prospective OWU students and their families interested in the career-related statistics for recent graduates.

*As with the Class of 2002, 32% of respondents for the Class of 2003 indicated they are pursuing graduate/professional studies. For the Class of 2003, 63% indicated being employed full-time ( 82% in their occupational field of choice).*

---

**Current status of Class of 2003 is as follows:**

20% are currently enrolled full-time in graduate/professional school  
12% are currently enrolled in graduate/professional school and are also employed  
5% indicated involvement in other endeavors (travel, voluntary unemployment, volunteer work) or were not employed at the time the survey was conducted.

---
