

Library of Congress Subject Headings for Geography 111
Middleton, *The Global Casino*, 1999.

Chapter 3

Sustainable development

Chapter 4

Amazon River region

Clearcutting

Clearing of land

Deforestation

Forest fires

Shifting cultivation

Chapter 5

Desertification

Droughts Great Plains

Dust Storms Great Plains

Chapter 6

Fisheries

Marine pollution

Marine resource conservation

Oceanography

Whales

Whaling

Chapter 7

Coastal ecology

Coral reef ecology

Great Barrier Reef

Queensland

Chapter 8

Estuarine area conservation

Lakes

Lake ecology

Lake renewal

Rivers

Rivers - regulation

Stream

Water pollution

Wetland conservation

Wetlands

Chapter 9

Aswan Dam region

Aswan High Dam Egypt

Aswan reservoir

Dams

Chapter 10

Air – pollution

Cities and towns

City planning

Smog

Urban ecology

Urban geography

Chapter 11

Climatic change

Global temperature changes

Global warming

Greenhouse effect

Ozone layer depletion

Chapter 12

Acid depositon

Acid rain

Acid rain – law and
legislation

Chapter 13

Agricultural ecology

Agricultural pollution

Agricultural systems

Agriculture

Food additives

Food industry and trade

Pest control

Pesticides

Sustainable development

Chapter 14

Soil conservation

Soil erosion

Chapter 15

Biological diversity

Giant Panda

Species diversity

Chapter 16

Air pollution

Motor vehicles

Transportation - automotive

Transportation energy

Chapter 17

Recycling

Refuse and refuse disposal

Chapter 18

Electric power production

Energy conservation

Energy consumption

Power resources

Renewable energy sources

Chapter 19

Mining industries

Chapter 20

Arms race

National Security

Nuclear warfare

Nuclear weapons

Vietnamese Conflict 1961-
1975

War

Chapter 21

Earthquake effects

Earthquake hazard analysis

Earthquake prediction

Earthquakes

Environmental degradation

Natural disasters

Natural disaster warning
systems
